

Oil-Only DripPan #DPO-16 - 10.5" x 10.5" x 3", 16 pans/package

An economical solution to high-volume leaks and drips.

- Use the high-capacity, low-profile Oil-Only Drip Pan under machines and leaky hydraulic hoses, or place one under any leak or drip that produces a high volume in a short time
- Ideal choice for catching recurring or continuous high-volume leaks
- No preparation required — simply set it in place and watch it go to work
- The rip-resistant polypropylene cover even helps keep filler and absorbed liquids inside
- Large surface area and 3" depth provides the volume you need to handle heavy leaks or drips
- Wide "footprint" keeps it stable, so you won't accidentally kick it over
