

PolyBacked Rig Mat #PBRIG48H - 57" x 48', 1 roll/package

Save your site costly cleanups by stopping mess before it starts!

- **Absorbs Oily Liquids — Repels Water:** MeltBlown polypropylene fibers are left in their natural hydrophobic state. These hydrophobic fibers repel water while only absorbing oils and other hydrocarbons. Ideal for outdoor use — Mat provides quick, efficient cleanup to help protect the environment from contamination.
- **Our Rig Mat is Durable:** A tough top layer of Spunbond makes the Rig Mat strong to stand up to foot and vehicle traffic. It's ideal for service rigs, sucker rod maintenance, wellhead maintenance, cleaner drilling and clean compressor houses.
- **Added Protection of Poly Backing:** The strength of our Rig Mat combines with the liquid-stopping power of an impenetrable, chemical-resistant poly backing to prevent liquids from seeping through.
- **Color-Coded:** Color-coding helps you visually identify the right sorbent for your needs. Blue designates Oil-Only sorbency and fits into many professional surroundings.
