

**Contents List for:**  
**MPN-KIT**  
**Multi-Purpose Neutralizers Spill Kit**

Qty	Pkg	Description	Size
2	Each	Ultimate Acid Eater Neutralizing Absorber <i>contains, neutralizes and solidifies a variety of acids, including sulfuric, hydrochloric, nitric, or phosphoric.</i>	1.5 lbs Shaker
1	Each	HF Acid Eater Neutralizing Absorbent <i>contains, neutralizes and solidifies hydrofluoric acid.</i>	1.5 lbs Shaker
1	Each	Base Eater Neutralizing Absorbent <i>contains, neutralizes and solidifies caustics.</i>	1.5 lbs Shaker
1	Each	BioRem-2000 Solvent Absorber <i>absorbs spills of many common hydrocarbon solvents.</i>	1.5 lbs Shaker
2	Pair	Safety Goggles	
2	Pair	Safety Gloves	
2	Each	Safety Apron	
1	Each	Disposal Bag & Tie	
1	Set	Broom & Dustpan set	
1	Each	Packaged in 3.5 gal portable pail	

## Instructions for: **BN6** *Base Eater Neutralizer & Absorbent*

Read and follow all instructions and warnings on the product packaging  
**AVOID ALL CONTACT WITH CAUSTICS EXCEPT AS DIRECTED.**

### **Assessment**

Identify the material spilled: Assess the toxicity, flammability, or other hazardous properties of the material, the size, type, amount and location of the spill.

### **Preparation**

Identify and obtain your personal protective equipment. This might include (but is not limited to) safety goggles, facemask, dust mask, gloves, apron, booties or more.

### **Clean Up**

1. Stop the source of the spill. Notify surrounding personnel of the spill, isolate and limit access to the immediate area where the spill has occurred.
2. Gently apply the Base Eater Absorber & Neutralizer around the edges of the spill, building a dike or barrier to contain it.
3. Then, slowly pour the absorber, working from the outside of the spill inward, until the liquid is completely covered.
4. Allow Base Eater™ Caustic Absorber & Neutralizer a few minutes to completely neutralize and absorb the spill. The product will form into a solid mass making it easy to clean up.
5. Prepare the disposal bags. Gently sweep up the material and place in the disposal bags.
6. Clean and rinse personal protective equipment with water before re-using.
7. Dispose of all used articles according to local, state and federal regulations.

## Instructions for: HFN6

### *HF Acid Eater Neutralizer & Absorbent*

Read and follow all instructions and warnings on the product packaging  
**AVOID ALL CONTACT WITH ACIDS EXCEPT AS DIRECTED.**

#### **Assessment**

## **Instructions for:** *BioRem-2000 Solvent Absorber*

Read and follow all instructions and warnings on the product packaging

**AVOID ALL CONTACT WITH SOLVENTS EXCEPT AS DIRECTED.**

### **Assessment**

Identify the material spilled: Assess the toxicity, flammability, or other hazardous properties of the material, the size, type, amount and location of the spill.

### **Preparation**

Identify and obtain your personal protective equipment. This might include (but is not limited to) safety goggles, facemask, dust mask, gloves, apron, booties or more.

### **Clean Up**

1. Stop the source of the spill. Notify surrounding personnel of the spill, isolate and limit access to the immediate area where the spill has occurred.
2. Apply BioRem-2000™ Solvent Absorber to the spill around its perimeter to dike the liquid, being careful not to inhale the vapors and avoid splashing the spilled material.
3. Then, slowly pour the absorber, working from the outside of the spill inward, until the liquid is completely covered.
4. Allow BioRem-2000™ Solvent Absorber a few minutes to completely neutralize and absorb the spill. The product will form into a solid mass making it easy to clean up.
5. Prepare the disposal bags. Gently sweep up the material and place in the disposal bags.
6. Clean and rinse personal protective equipment with water before re-using.
7. Dispose of all used articles according to local, state and federal regulations.
