

PomPoms on Rope #APMPM-R - 30 on 50' rope

PomPoms float on the water's surface to absorb oily spills and even surface sheen.

- Thousands of thin strands of polypropylene are joined together to create this high surface area sorbent
- Heavy oils adhere to the PomPoms, while water is repelled, so they won't become weighed down and capacity won't be wasted; can leave them in place longer for maximum effectiveness
- PomPoms come connected on a rope for instant deployment
- Note: Actual color may vary.
