

Universal DripPan #DPU-16 - 10.5" x 10.5" x 3", 16 pans/package

Economical solution to high-volume leaks and drips.

- Use high-capacity, low-profile DripPan under machines and leaky hydraulic hoses, or just place one under any leak or drip that produces a high volume in a short time
- Just pick it up and dispose of it — no shoveling required
- Rip-resistant polypropylene cover even helps keep filler and absorbed liquids inside.
- Large surface area and 3" depth provides the volume you need to handle heavy leaks or drips
- Wide "footprint" keeps it stable, so you won't accidentally kick it over
- Note: Ideal for use with battery acid but not compatible with higher concentrations of sulfuric acid
