

Containment Berm #PAC48 - 4' x 8' x 12", 1 each/package

Large-sized Berm is ideal for large-scale spill containment beneath tanker trucks, roll-off containers and more.

- **Easy to Assemble and Use:** One-piece design permits immediate response, compact storage and transport. Just fold down the sidewalls and drive right in for instant containment. Simply clean and store after use. Highly portable.
- **Durable for Long Life:** Features excellent rip, tear and puncture resistance for demanding applications and rough terrain. Durable and sturdy unit is constructed of chemical-resistant materials. Repairable and compatible with acids, water, oils and solvents, the Berm can be cleaned after use and stored for future use. Note: This item is drop-shipped from vendor.

PAC48 Technical Information

Warnings & Restrictions:

There are no known warnings and restrictions for this product.

Regulations and Compliance:

40 CFR 264.175 - Hazardous waste containment systems must be free of structural cracks or gaps; designed to keep spilled liquids from remaining in contact with the container; prevent run-on and "have sufficient capacity to contain 10% of the volume of the containers or the volume of the largest container, whichever is greater." For example, four 55-gallon drums require secondary containment of 55 gallons.

40 CFR 263.30(a) - In the event of a spill, transporters must, "take appropriate immediate action to protect human health and the environment."
