

WaterWick #WW10 - 1" x 9" 1/package

Maintain peak performance and prevent engine failure. A WaterWick sorbent pulls in water that collects in fuel tanks before it can cause damage.

- Helps preserve engine life and prevent frozen lines by removing water from fuel stores; also minimizes filter-clogging rust and algae
- Ballast forces WaterWick to bottom of tank, where unwanted water settles; highly-absorbent filler pulls in water but repels gas and diesel fuel
- Tough nylon line for easy deployment and retrieval
