

Containment Berm - Hurdle Bracket #BERM48H - 8' x 4' x 1', 1 each/package

Provide large-scale containment that helps meet regulations with this durable, drive-in berm.

- Reinforced Coolguard® fabric resists rips, tears and punctures; highly durable for demanding applications
- Chemical-resistant berm is compatible with acids, water, oils and solvents
- Sidewalls are supported by wide-base hurdle brackets; larger support area offers maximum rigidity and stability
- Great for long-term containment of drums, totes, roll-offs, equipment and vehicles; also ideal for decon stations or response to tank leaks
- Reusable berm can be repaired if damaged; clean, fold and store for future deployment

BERM48H Technical Information

Warnings & Restrictions:

There are no known warnings and restrictions for this product.

Regulations and Compliance:

40 CFR 264.175 - Hazardous waste containment systems must be free of structural cracks or gaps; designed to keep spilled liquids from remaining in contact with the container; prevent run-on and "have sufficient capacity to contain 10% of the volume of the containers or the volume of the largest container, whichever is greater." For example, four 55-gallon drums require secondary containment of 55 gallons.

40 CFR 263.30(a) - In the event of a spill, transporters must, "take appropriate immediate action to protect human health and the environment."
